Grab Bar

LET ALL YOUR DREAMS,

embodied in the life bit by bit.

In fact, the established standard home decoration is in constant change, making housing increasingly becoming a mix ofvarious styles of thought space. Clean the bathroom is no longer a purely functional space Barber they have becometo enhance physical and mental health" in the center. People enjoying a private time in the bathroom and hope that ourproducts can enhance the experience. Improve the quality of people's lives, to design products to meet ther expectatons, and promote hamony between man andwater. It is our responsiblity! Our products must be easy to operate, rellable, durable, and they must provide customers withan extraordinary experience.

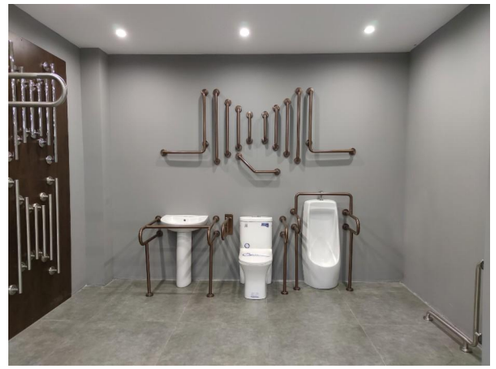

ENJOY FREENESS

The bathroom hardware pendant is only a small supporting role in the home decorationbut it is extremely important. The good product is selected, which can make the finishingeffect for the bathroom decoration and use. The poor product is selected, which not only destroys the overall beauty of the bathroom decoration. More rust, blistering, flaking,looseness and other sequelae due to poor product quality, so how to choose high-quality bathroom hardware is very important.

Whether it meets the decoration styleThe style of the home environment should be kept uniform, and the bathroom pendant isthe crowning touch. Quality life, choose gold quality bathroom accessories. Advocatingsimple and moder, choose the bathroom accessories with simple lines. Follow the retrotrend and choose the traditional shape of the pendant. Personalize your home and choosea bathroom accessory with a creative personality.

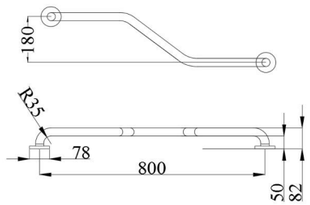

Whether the room pendant material is thickThe textured bathroom pendant shows the owner's taste at the door. The same shape,quality bathroom pendant material is thicker, more weight in the hand, higher purity thanthe ordinary bathroom pendant material, more resistant to strong acid and alkali.

Shower grab bar combo | Product advantages

Myforge newly developed safe Shower grab bar combo

1. Holistic design, saves space, and is more sturdy.
2. Practicality, more comfortable to use, and easier to install.
3. Aesthetics, the product's shape and color are more harmonious.

VS

Other products that are currently in use

1. Holistic, not harmonious and unified.
2. Takes up space and is not aesthetically pleasing.

Shower grab bar combo series

- The seated shower series offers an independent and freely combinable bathing experience.

Shower grab bar combo

Separate unit Shower grab bar combo

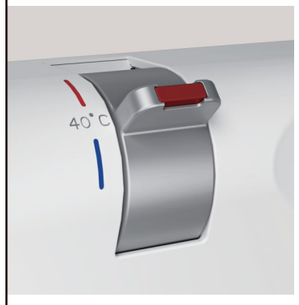

Integrated Shower grab bar combo

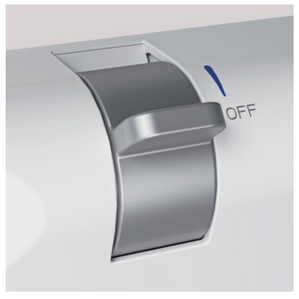

- Assisting the elderly and other special groups: Independent bathing for the elderly, pregnant women, children, those with limited mobility and disabilities; also providing users with comfortable and diverse bathing experiences.

Shower grab bar combo series

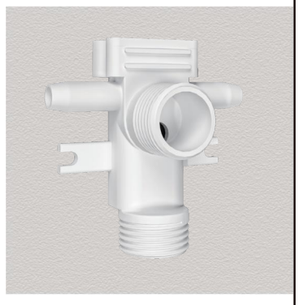

Thermostat switch

Water output adjustment switch

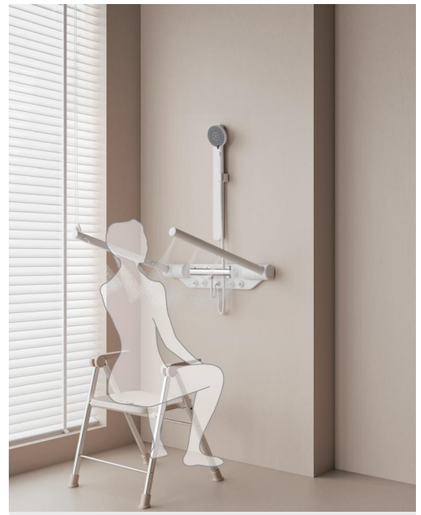

Remote control waterway switching valve

Shower grab bar combo series

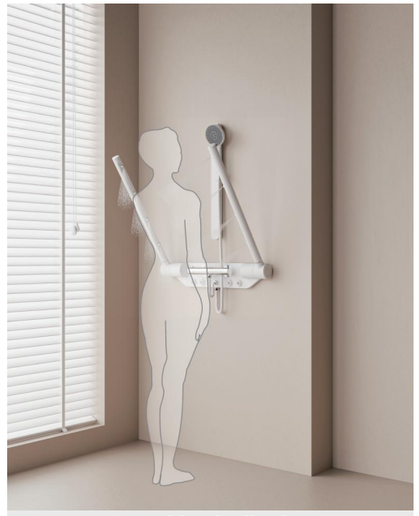

Multiple shower options

Back bath display

Frontal bathing display

Stand bath display

Adjustable water spray angle

Integrated Shower grab bar combo

Advantages

- Thermostatic Control
- Removable spray arm
- Remote control switching
- Large handle control
- Multidimensional rinsing
- Fog water envelops the bath

Specification

Material: Aluminum alloy + ABS, etc.

Size: 857mm*561mm*74mm

Colour: Matte White

- Provide an integrated overall solution for bathroom space;
- The shower arm has an ultra-thin design, freeing up more space;
- The movable seat shower can be flexibly folded and stored;
- The handheld shower head can freely switch the water flow state;
- Combined with the triangular handrail, it is more in line with ergonomic design, enhancing the grip feeling and making it more stable and less likely to slip;
- Barrier-free floor drain: Provides more safety protection for barrier-free access.

Separate unit Shower grab bar combo

Advantages

- Simple installation
- Remote control switching
- Removable spray arm
- Fog water envelops the bath

Specification

Material: Aluminum alloy + ABS, etc.

Size: 1880*685*455㎜

Colour: Matte White

- The flexible combination method caters to the usage needs of different family members: Shower unit + Shower head + Shower seat;
- The standing / sitting type bathtub is suitable for the elderly, pregnant women, and those with mobility issues. It is easy to use and saves effort, and also reduces the risk of slipping.
- Folding shower seat + ultra-thin spray arm design, saving more space and suitable for the regular bathroom space of Chinese families;
- During the bath, steam rises, and even in winter, the shower is extremely cozy. The fine mist envelops the entire body, providing a "soaking bath" experience like being in a hot spring, allowing for a deep enjoyment of warmth and comfort from head to toe.

Folding Shower Seat Series

- According to the different usage needs of users and various space scenarios, you can flexibly choose to match the bathroom shower seat. It is foldable, movable and saves space. With a safe and reliable load-bearing design, you can fully enjoy the relaxing and pleasant experience brought by sitting in the bath.

Portable folding shower seat

Folding shower seat

Wall-mounted folding shower seat

Portable folding shower seat

Advantages

Ultra-thin folding

Soft seat surface

Simple and fashionable

Safe load-bearing capacity

Specification

Material: Aluminum alloy + ABS, etc.

Size: 857*561*74㎜

Colour: Matte White

Load-bearing: 135kg

- Move the bathing chair, with handrails for support to prevent falls. It can be folded and stored when not in use.
- The seat surface is made wider and deeper, providing a comfortable feel. It is easy to clean and can be folded for easy storage, thus saving space.

Wall-mounted folding shower seat

Advantages

- Aluminum chair legs
- Drainage hole
- Anti-slip design
- High-strength seat surface
- Larger seat surface
- Slow descent, quick disassembly

Specification

Material: Urea-formaldehyde + Aluminum alloy + SUS304
Size: 455*430*456㎜
Colour: White / Gunmetal grey / Brushed
Load-bearing: 200kg

- The folding shower seat features a streamlined design, with the ginkgo leaf-shaped water drainage holes that prevent water stains.
- Enhanced with raised bumps for better grip, wider seat for greater comfort, silent and gradual descent, foldable for space-saving, strong load-bearing capacity.

Wall-mounted folding shower seat

Solid wood folding shower seat

Advantages

- Ultra-thin folding
- Solid wood with a comfortable touch
- 304 stainless steel
- Anti-corrosion painted surface

Specification

Materail: Solid wood + SUS304, etc.
Size: 420㎜*340㎜*266㎜
Colour: Wooden color
Load-bearing: 150kg

- Suitable for various occasions such as bathrooms, entrance halls and corridors. The folding design is compact and does not occupy much space. It can be folded away when not in use and has strong load-bearing capacity. The solid wood color is warmer and can blend well with the home environment for matching.

Shower Grab Bar Series

Various applications

Safety Guarding

Warm products

- From bathroom, bathroom, bedroom, to public spaces and other scenarios of home furniture, the installation of handrails helps users avoid slipping on the floor or having a fall when getting up; the stable grip provides a strong sense of safety.
- The material application and appearance design focus on creating a warm atmosphere for the home, making the product more comforting and better suited for integrating with the home decor; it fully conveys a sense of warmth.

Anti-slip safety grab bar

Advantages

- Simple and elegant
- Aluminum alloy core
- Anti-loosening rotation
- Anti-slip texture
- Attractive decorative cover
- Waterproof installation

Specification

Material: Urea-formaldehyde + Aluminum alloy + SUS304
Size: 455mm * 430mm * 456mm
Colour: Grey
Load-bearing capacity: 135kg

- Roman column style anti-slip texture; smooth and non-scratching, achieving a perfect blend of experience and safety requirements.
- No spacer design, more simple and more beautiful. The soft square decorative cover design provides a visually stable and elegant appearance.
- Hard PVC molding, with high strength and good weather resistance;
- The color can be customized and antibacterial option is available.
- Anti-reverse and anti-loosening design, consistent every time.

Bedside grab bar

Advantages

Anti-fall grating

Grasp to stand up

Easy-to-operate folding structure

Bedside grab bar

Specification

Material: Carbon steel + PA + silicone gel

Size: 762*362*480mm

Colour: Grey

Load-bearing capacity: 100kg

- The inclined handrail when getting up is in the most natural position for hand grasping when lying down. It combines both pulling and supporting forces, which is beneficial for getting up.
- The long inclined surface allows for easy and effortless ascent by grasping at different heights.
- The combination of inclined handrails and flat handrails makes the grip transition more natural.
- Wrapped in soft rubber, it feels gentle and comfortable.
- Innovative sliding rail folding structure;
- Optional sensor night light.

Electrically operated lifting grab bar

High-end elderly care

Intelligent Hair Care

- For high-end elderly care facilities, we have developed health care products that feature electric lifting and safety assistance.
- Intelligent washing and grooming, as well as toilet usage, experience functions create a healthy and comfortable living environment for the elderly.

Wall-mounted hidden lift toilet grab bar combo

Wall-mounted Hidden Lifting Toilet

Advantages

- Safety grab bar
- Electrically controlled lifting/dropping
- Silent design
- Tempered glass finish
- Strong load-bearing capacity
- Hidden frame design

Specification

Material: Ceramic + Carbon
Steel + Tempered Glass
Size: 659*937*696mm
Colour: Matte white
Adjustable height: 150mm

- The exterior is decorated with tempered glass, which is smooth and flowing. Through the electric lifting function, it can be adjusted in three levels of height and provides safety assistance. It meets the comfortable and safe toilet experience for people of different heights and needs (children, regular people, the elderly), especially suitable for the elderly who have special needs, and can provide a considerate service of assisting them to stand up.

Wall-mounted hidden lifting washbasin

Advantages

- Hidden frame design
- Electrically controlled lifting/dropping
- Silent design
- Tempered glass finish
- Strong load-bearing capacity
- Rotating mirror

Specification

Material: Ceramic + Carbon
Steel + Tempered Glass
Size: 659*750*1000mm
Colour: Matte white
Adjustable height: 170mm

- With an electric lifting function, it is equipped with a lifting toilet bowl and a safe toilet bowl with a handle for easy grasping.
- The height can be freely adjusted, and there is an accessible space to accommodate wheelchair users.
- The mirror is designed in a split style, and can be used as soon as it is close to the basin. It brings convenience, health and comfort to the elderly during their washing and grooming.

Wall-mounted external washbasin

Advantages

- Wall-mounted design
- Electrically controlled lifting/dropping
- Silent design
- Jap.-style elderly washbasin
- Strong load-bearing capacity
- Rotating mirror

Specification

Material: Artificial stone + carbon steel
Size: 800*554*457mm
Colour: Matte white
Adjustable height: 170mm

- Electric height-adjustable basin, safe and easy to hold.
- The height can be freely adjusted, and there is an accessible space to accommodate wheelchair users.
- The mirror is designed in a split style, and can be used as soon as it is close to the basin. It brings convenience, health and comfort to the elderly during their washing and grooming.

Floor drain for shower room

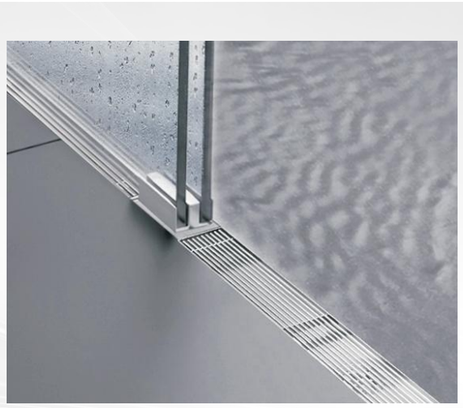

Advantages

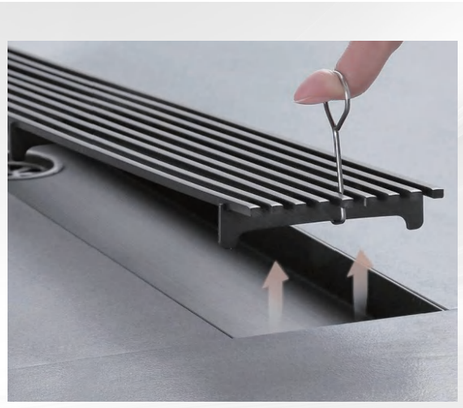

Customized design | Barrier-free access

Silent design | Customized surface finiished

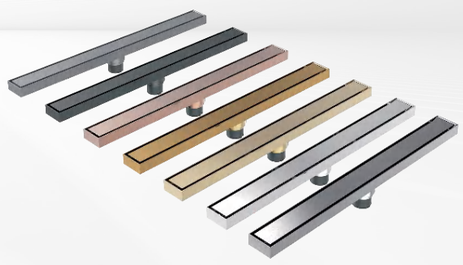

High flow rate drainage | 304 stainless steel

- The floor inside the shower enclosure is at the same level as the floor outside the shower enclosure, without a water-blocking strip, and there is no risk of tripping or falling.
- Customized Double (multiple) hole drainage, large area drainage, large water seal capacity, smooth drainage, no water accumulation.
